

## Key Stage 3 Semi-Formal Curriculum

Every school must offer a curriculum which is balanced and broadly based and which:

- promotes the spiritual, moral, cultural, mental and physical development of pupils at the school and of society
- prepares pupils at the school for the opportunities, responsibilities and experiences of later life.

At Key Stage 3 the Semi-Formal Curriculum provides a topic theme alongside areas that should be covered within the theme.

The Semi-Formal Curriculum is for pupils working within the p levels. This provides the full range of curriculum opportunities for all pupils following this pathway.

A subject specific curriculum / creative curriculum exists for pupils operating at a higher level.
